

Reconnect through better hearing.

Audiology Concierge's personalized concierge service helps people hear better by offering:

- Hearing prescriptions and custom fittings
- Listening demonstrations to hear the sounds that you have been missing
- State of the art hearing technology at better than wholesale pricing
- Amplification for computer, TV, and phone
- On-going, regular lifetime maintenance and product upgrades
- Community-Based Educational Seminars and Consulting Services

The Return of the Doctor's House Call

Our doctor can visit you in the privacy and comfort of your own home.

Hearing loss can lead to **depression** and **isolation** making everyday living and functioning unnecessarily challenging.

You deserve to hear every single word.

EMPOWERING LIVES THROUGH BETTER HEARING

CAN YOU HEAR
LIKE I HEAR?

Our compassionate team of Audiologists and Hearing Instrument Specialists are dedicated to providing you with comprehensive hearing evaluations, treatment and service.

We have the time and patience to explain and educate you and your family on the choices available. Digital hearing aid technology and hearing impairments are not all the same; we provide a variety of service solutions ensuring optimal hearing at an optimal value.

We Help You to Maintain Your Competitive Edge.

You've worked hard throughout your life and career to gain the respect you deserve. With cutting edge technology, we help you stay ahead; competitive and sharp, hearing and understanding every single word.

“I had been putting off the inevitable, missing conversations at important meetings. After all, I was only 51....who do I know with hearing aids at my age?” **Thanks to Nancy and René**, no longer is my first response to everyone **‘What?’**

Stop pretending, start hearing today

We work with you to maintain your independence.

Keen senses allow you to continue to be self-sufficient. It's about your health and personal well-being; staying connected, being social, keeping active.

Audiology Concierge understands that purchasing hearing aid technology can be emotionally challenging and confusing. René and Nancy both wear hearing aids and have experience working for major manufacturers. Dr. Joshua Jablonski joined the family practice to share his clinical expertise from working with ENT physicians. Together, they have the medical knowledge and technical skills for prescribing the best solutions for your hearing health and budget.

“...I am 94 years old, I **hear things the first time** and I am able to live independently. I don't ever worry about transportation to an audiologist, and my home is equipped with all the **latest audio-enhancing technology**. The team set up my amplified/captioned phone, and also connected my TV system to transmit wirelessly to my hearing aids so that I never miss a beat of the UCONN game!”

FREE 30 DAY TRIAL PERIOD!

Take the “Huh?” out of Hearing

Dr. Joshua Jablonski, Nancy Jablonski, Audiologist and René Vicedomini, Hearing Instrument Specialist, collectively have over 35 years of experience representing major hearing aid manufacturers assisting colleagues fitting hundreds of hearing impaired patients in ENT offices, universities clinics, hospitals and private practices in Connecticut, New York and throughout New England.

Audiology Concierge was founded to change and improve the traditional path to better hearing with professional expertise, state of art technology delivered with impeccable and personalized service.
